- General trauma related injuries
- Upper and lower limb injuries
- Road traffic accidents
- Spinal injury/trauma, whiplash, low velocity injuries
- Fracture of upper or lower limb / orthopaedic injury/trauma
- Prison and domiciliary visits
- Clinical negligence reporting

Medical Experience

I was appointed in 2003 as a Consultant Orthopaedic and Trauma Surgeon at York Teaching Hospital NHS Foundation Trust after completing my CCST on the West Midlands Trauma & Orthopaedic Rotation. I have a busy general orthopaedic practice including both elective lower limb arthroplasty and general trauma, as well as being an Independent Medicolegal Expert, offering clinics in York, Leeds, Hull, Middlesbrough, Bradford, Birmingham, Harrogate, London, Wakefield, Sheffield and Oxford.

I have held positions as Clinical Director of Trauma and Orthopaedics at York Teaching Hospital NHS Foundation Trust; Deputy Training Programme Director Trauma & Orthopaedics, Yorkshire & Humber, Health Education UK; Orthopaedic Advisor to orthopaedic companies (LIMA Ltd, Biomet & DePuy Johnson and Johnson); and Nuffield Health Medical Advisory Committee.

I have been undertaking medico-legal reports since 2001 and currently do between 300 and 400 reports a year.

CURRICULUM VITAE

Medico-Legal Experience

I have undertaken medicolegal work since 2001 and have attended numerous medicolegal courses to keep myself up-to-date. My Medco accreditation has also been renewed. I currently perform 300–400 reports per year.

I am instructed for 30–50 medical negligence cases per year and was last in Court (successfully) in October 2020. Report ratio is 80% for plaintiff, 10% joint instructions, 10% for defendant. I have also attended seminars relating to medico-legal reporting in Warwick and London.

I undertake any form of personal injury work, and I am happy to undertake domiciliary/prison visits. I aim to see patients within 4–6 weeks and have the completed report returned within 7 to 10 working days, on average — documentation permitting.

I am happy to provide an online booking service and can return reports electronically if acceptable. I am also happy to undertake clinical negligence and complex specialist injury/orthopaedic cases.

I am happy to see patients with general trauma and orthopaedic conditions, including back pain, whiplash, arthritis, post fracture of bones/soft tissue injuries, or complications of such injuries. I see patients with upper limb injuries, repetitive strain injuries to the upper limb, neck and back, and low-velocity injuries.

My area of special interest is trauma, lower limb reconstruction, spinal injuries, work-related injuries and orthopaedic problems in the young patient. I speak Urdu, Hindi and Punjabi.
